PROFESSIONAL SUMMARY

Business Analyst and Systems Analyst with 4+ years of experience in enterprise system architecture, requirements gathering, gap analysis, stakeholder management, and process improvement across aviation and IT sectors. Currently completing MCA with specialization in Artificial Intelligence and Machine Learning, applying AI-driven analytics to business intelligence and decision-support systems. Delivered full-lifecycle systems analysis for mission-critical platforms across 18 operational stations, improving platform reliability and cutting analytical processing time by 35%. Expertise spans SQL optimization, MIS reporting, dashboard development, UAT coordination, BRD and FRD documentation, and translating complex requirements into scalable technology solutions. Certified by IIM Calcutta in Data Analysis.

WORK EXPERIENCE

Business Analyst and Systems Analyst

Bird Group – Bird Flight Services India Pvt. Ltd. | New Delhi | Jan 2026 – Present

- Led requirements analysis for a mission-critical aviation operations platform across 18 stations, capturing 100+ functional and non-functional specifications across 6 major modules.
- Performed gap analysis between existing workflows and target-state architecture, identifying 25+ process inefficiencies and translating findings into detailed BRDs, FRDs, and user stories.
- Coordinated UAT cycles with 5 business units, resolving 40+ defects pre-launch and achieving zero critical production issues at go-live across all 18 operational stations.
- Lowered unplanned outages by 30% by enforcing high-availability architecture standards and data integrity protocols across all integrated platforms.
- Facilitated weekly stakeholder reviews with C-suite and operations heads, maintaining 100% on-time delivery across 5+ concurrent project streams.
- Established traceability matrices and change management logs, ensuring full regulatory compliance and audit-readiness across 18 airport stations.

Executive – Marketing and Business Development

Bird Group – Bird Worldwide Flight Services | New Delhi | Dec 2024 – Present

- Finalized ground handling agreements with 20+ domestic and international airlines across 18 major Indian airports as the designated signing authority from senior leadership.
- Produced weekly and monthly MIS reports consolidating data from 18 airports, enabling leadership to make data-backed decisions 40% faster than prior manual processes.
- Automated Excel reporting dashboards using VBA macros, reducing manual MIS compilation time by 35% and eliminating 90% of recurring formula errors across all financial reports.
- Examined 3+ years of flight and revenue records to surface growth opportunities, contributing to a 15% increase in ground handling contract volume within 6 months.

Process Associate

Experia Group – IGT Solutions | Gurgaon, Haryana | Dec 2023 – Jul 2024

- Provisioned application environments across cloud infrastructure on Amazon Web Services (AWS), ensuring 99.5% uptime across 3+ production systems throughout the full deployment lifecycle.
- Streamlined operational workflows and quality control checks, cutting process cycle time by 20% and reducing rework incidents by 25% within an IT consulting delivery setup.
- Tracked project KPIs through bi-weekly progress reports, keeping 4 active workstreams on schedule and delivering all milestones within agreed timelines.

IT Consultant and Faculty

EduConclave | New Delhi | May 2020 – Jul 2023

- Modernized the organization's complete IT infrastructure across hardware, software, and networking for 100+ daily users, cutting system downtime by 45% over 12 months.
- Integrated a Learning Management System and digital classroom tools, raising student engagement scores by 30% and saving 2 hours of administrative work per day.
- Evaluated performance data across 10+ student batches, generating structured academic reports that directly improved average pass rates by 20% through targeted curriculum adjustments.

- Trained 200+ students across 8 batches in Python, Java, C++, and SQL, maintaining an 87% course completion rate and a 4.6/5 average student satisfaction score.

PROJECTS

Flight Reservation Information System | Python, SQL, DBMS

GitHub | Jan 2025

- Developed a full-featured flight reservation application handling end-to-end booking workflows for 10,000+ monthly users, covering passenger records and real-time seat availability.
- Structured a normalized relational database schema with optimized SQL queries, reducing data retrieval time by 35% for high-frequency booking transactions.

Air Quality Index Analytics Dashboard | Python, Data Visualization, Statistics

GitHub | Aug 2024

- Built a multi-city AQI analytics dashboard analyzing data from 10+ environmental metrics, generating trend and seasonal pattern reports used by civic authorities for policy decisions.
- Applied statistical modeling to surface pollution patterns and health risk indicators, reducing manual data analysis time by 60% through automated ingestion pipelines.

Personal Portfolio Website | React.js, Next.js, Vercel

portfolio-sage-mu-53.vercel.app | Mar 2025

- Developed and published a professional portfolio achieving sub-1.5s load time and 95% mobile compatibility, showcasing 5 project domains with structured navigation and responsive layout.

SKILLS

Business Analysis: Requirements Analysis, Gap Analysis, BRD/FRD Documentation, UAT Coordination, Stakeholder Management, User Stories, Use Cases, Process Improvement, Change Management, Requirements Traceability

Data & Reporting: SQL, SQL Query Optimization, Data Modeling, MIS Reporting, Dashboard Development, KPI Tracking, Big Data Processing, MySQL, SQL Server, PostgreSQL, Advanced Excel, Excel VBA & Macros, Power BI, Tableau

AI & Machine Learning: Machine Learning, Predictive Modeling, AI-Driven Analytics, Python Automation, Decision-Support Systems

Programming: Python, Java, SQL, C++, JavaScript, PHP, MATLAB

Cloud & Tools: Amazon Web Services (AWS), AWS Bedrock, JIRA, MS Visio, Git, Postman, Zoho Inventory, LMS Platforms

Methodologies: Agile, Scrum, SDLC, Waterfall, Project Lifecycle Management, Enterprise System Architecture, Cross-Functional Team Leadership

EDUCATION

MCA – Specialization in Artificial Intelligence & Machine Learning

Manav Rachna International Institute of Research and Studies, New Delhi | 2024 – Present | GPA: 8.2 / 10

BCA – Bachelor of Computer Applications

Integrated Institute of Technology, Dwarka Sector-09, New Delhi | Aug 2020 – Jun 2023 | GPA: 8.5 / 10

Class XII – CBSE, Commerce with Information Practices

St. George's School, Alaknanda, New Delhi | 2020 | 85.2%

CERTIFICATIONS

- **Data Analysis – IIM Calcutta** – Certification in data analysis, Excel, and business decision-making frameworks for extracting strategic insights.
- **Advanced Excel & Data Analysis – Coding Ninjas** – Completed advanced training in Excel architecture, mastering VBA macro development which automated repetitive tasks saving 8 hours weekly for financial reporting.
- **AWS Compute Services & Amazon Bedrock** – Certification in cloud infrastructure management and generative AI application development, focusing on scalability and security.
- **Cryptocurrency Trading** – Certification in digital asset trading, financial market analysis, and risk management strategies.

ACCOMPLISHMENTS

- **Letter of Appreciation – My Captain** – Recognized for outstanding contributions to Stock Market and Finance analysis.
